

GENERAL PRACTICUM MODEL

$$\text{OJT}_{(\text{ITE})} = \text{SD}_{(w)} + \text{TS}_{(x)} + \text{R}_{(y)} + \text{BO}_{(z)}$$

- * OJT -> On-the-Job-Training
ITE = BSCS or BSIT or BSIS
- * SD -> Systems Development Competency
TS = Technical Support Competency
R = Research Competency
BO = Business Operations Competency
w,x,y,z = number of hours for each competency

BSCS Practicum Model

$$\text{OJT}_{(\text{CS})} = \text{SD}_{(\text{w})} + \text{R}_{(\text{y})}$$

- * *Systems Development (SD) and Research (R) are mandatory*
- * *Technical Support (TS) and Business Operations (BO) are optional*

BSIT Practicum Model

$$\text{OJT}_{(\text{IT})} = \text{SD}_{(\text{w})} + \text{TS}_{(\text{x})}$$

- * *Systems Development (SD) and Technical Support (TS) are mandatory*
- * *Research (R) and Business Operations (BO) are optional*

BSIS Practicum Model

$$\mathbf{OJT}_{(IS)} = \mathbf{SD}_{(w)} + \mathbf{BO}_{(z)}$$

- * *Systems Development (SD) and Business Operations (BS) are mandatory*
- * *Research (R) and Technical Support (TS) are optional*

SYSTEMS DEVELOPMENT MODEL

- Model A:** SD = Systems Analysis + Development + Documentation - Deployment + Exposure {onsite immersion}
- Model B:** SD = Systems Analysis + Development + Documentation - Deployment + Exposure {hybrid (offsite+onsite)}
- Model C:** SD = Systems Analysis + Development + Documentation + Deployment + Exposure {onsite immersion}
- Model D:** SD = Systems Analysis + Development + Documentation + Deployment + Exposure {hybrid (offsite+onsite)}
- Model E:** SD = A | B | C | D + Company Field Trips, Seminars

TECHNICAL SUPPORT MODEL

- Model A:** TS = Technical Support + Development + Documentation - Deployment + Exposure {onsite immersion}
- Model B:** TS = Technical Support + Development + Documentation – Deployment + Exposure {hybrid (offsite+onsite)}
- Model C:** TS = Technical Support + Development + Documentation + Deployment + Exposure {onsite immersion}
- Model D:** TS = Technical Support + Development + Documentation + Deployment + Exposure {hybrid (offsite+onsite)}
- Model E:** TS = A | B | C | D + Company Field Trips, Seminars

RESEARCH MODEL

- Model A: R** = Research + Development + Documentation - Deployment + Exposure {onsite immersion}
- Model B: R** = Research + Development + Documentation – Deployment + Exposure {hybrid (offsite+onsite)}
- Model C: R** = Research + Development + Documentation + Deployment + Exposure {onsite immersion}
- Model D: R** = Research + Development + Documentation + Deployment + Exposure {hybrid (offsite+onsite)}
- Model E: R** = A | B | C | D + Company Field Trips, Seminars

BUSINESS OPERATIONS MODEL

Model A: $BO = \text{Business Operations} + \text{Exposure \{onsite immersion\}}$

Model B: $BO = A + \text{Company Field Trips, Seminars}$
